I am a full-stack developer and AI automation engineer with experience in building scalable web applications. I work on both frontend and backend, integrate APIs and databases, and create AI-powered automation workflows. My focus is on building smart systems that save time, reduce manual work, and improve efficiency.

Work experience

full stack developer   Feb 2022 - Jan 2026
full stack developer, gilgit

I am a full-stack developer and AI automation engineer with experience in building scalable web applications. I work on both frontend and backend, integrate APIs and databases, and create AI-powered automation workflows. My focus is on building smart systems that save time, reduce manual work, and improve efficiency.

ai automation engineer   Jun 2024 - Sep 2026
automation engineer, gilgIt

I am an **n8n automation engineer** with experience in designing and building end-to-end workflows. I automate business processes using APIs, webhooks, databases, and AI tools. My focus is on creating reliable, scalable automations that save time, reduce manual work, and improve system efficiency.

Education and Qualifications

c   Aug 2021 - Sep 2025
karakoram international university pakistan, gilgit

I hold a **Bachelor's degree in Computer Science** from **Karakoram International University, Pakistan**, with a strong foundation in software development, web technologies, and AI-based automation.
